SANTHAKUMAR S

Lead iOS Developer | MERN Stack Developer

EXPERIENCE 10.5 YEARS

WORK EXPERIENCE

Lead Consultant

Randstad Digital And Product Engineering
Bangalore

04/2024 - Present

Project - Walmart

Roles and Responsibility -

- Designed and developed the EV, Order details module and implemented API contract changes using Jira.
- Developed and delivered Live Activities using SwiftUI, enhancing user experience.
- Quickly adapted to the project, learning the codebase independently and collaborating across teams in India and the US.
- Proactively took on new responsibilities, including mastering SwiftUI and Live Activities, to deliver high-quality features on time, while adjusting work hours to accommodate team availability across time zones.
- Delivered client-focused solutions by addressing feedback thoroughly, reducing PR comments over time, and contributing cross-platform handling suggestions for both iOS and Android applications.
